NOTICES AND ORDERS OF BUILDING OFFICIAL

SEC. 9-3.401 NOTICE AND ORDER. The Building Official shall examine or cause to be examined every building or structure or portion thereof to determine whether it is unsafe, substandard, and dangerous, and if such is found to be an unsafe, substandard, and dangerous building as herein defined, the Building Official shall notify or cause to have notified the owner of such building or structure and other persons having a beneficial or legal interest of record in the building or structure as hereinafter stated.

- a. The notice shall contain the street address and a description sufficient for identification of the premises upon which the building is located. The notice shall state the conditions which render the building or structure an unsafe, substandard, and dangerous building. The notice shall order the correction or abatement thereof either by repair, rehabilitation, demolition, or removal within such time (not to exceed 30 calendar days from the date of the order) as the Building Official shall determine is reasonable under all of the circumstances. If in the opinion of the Building Official such conditions can be corrected or abated by repair or rehabilitation thereof, the notice shall state the repairs or rehabilitation which will be required. Such notice shall also state that if the repairs, rehabilitation, demolition, or removal are not completed within the time specified, or within such extension of time as may be granted by the Building Official, the work specified in the notice may be done or caused to be done by the Building Official and the cost thereof levied as a special assessment against the property.

If necessary, such notice may also require the building, structure, or portion thereof to

be vacated forthwith and not reoccupied until the required repairs and improvements are completed, inspected, and approved by the Building Official. The notice shall also state that any person having any beneficial or legal interest of record in the building may appeal from the notice and order or any action of the Building Official to the Building Abatement Appeals Board, provided the appeal is made in writing as provided in this code, and filed with the Building Official within 10 calendar days from the date of service of such notice and order, unless the Building Official determines that immediate action is necessary and must take action pursuant to chapter 1, section 102 of the Uniform Building Code. The notice shall further state that failure to appeal as provided in this code shall constitute a waiver of all right to an administrative hearing and determination of the matter and will waive all right to maintain any action, suit, or proceeding to set aside or modify the Building Official's notice, order, and action.

- b. If such building is encumbered by a mortgage or a deed of trust, of record, and the owner of such building shall not have complied with the order of the Building Official on or before the expiration of time specified on such notice and order, the mortgagee or beneficiary under such deed of trust may, within the same period, comply with the requirements of the order of the Building Official. For good cause shown, the Building Official may extend the time within which to complete said repairs, rehabilitation, demolition, or removal.

- c. The notice required hereinabove shall be given in the following manner:

The Building Official shall post or cause to be posted conspicuously at least one copy of the notice on the building and a copy of such notice shall be personally served upon, or sent by certified mail, postage prepaid, return receipt requested, to the person owning the land on which the building is located, as such person's name and address appear on the last equalized assessment roll of the County of Alameda. If the address of any known person entitled to service of the notice and order is unknown to the Building Official, then a copy shall be mailed, addressed to such person, at the address of the building involved in the proceedings.

A declaration of posting and mailing shall be made under penalty of perjury by the person or persons who posted and/or mailed said notice, certifying to the time and manner in which such notice was given, and such declaration shall be filed in the Development Inspection Services Division of the Department of Community and Economic Development of the City of Hayward. There shall also be filed therewith any receipt card which may have been returned in acknowledgment of receipt of such notice by registered mail. SEC. 9-3.402 POSTING OF SIGNS. In those cases in which the Building Official has determined that it is necessary that such building, structure, or portion thereof be vacated

forthwith, he shall cause to be posted at each entrance to such building a notice to read: 'DO NOT ENTER. UNSAFE TO OCCUPY. Development Inspection Services Division of the Department of Community and Economic Development of the City of Hayward.' Such notice shall remain posted until the required repairs, demolition, or removal are completed. Such notice shall not be removed without written permission of the Building Official and no person shall enter the building except for the purpose of making the required repairs or of demolishing the building until the required repairs, demolition, or removal have been completed and a Certificate of Occupancy issued pursuant to the provisions of the Hayward Building Code.

SEC. 9-3.403 RECORDATION. If compliance with the Building Official's order is not achieved within the time specified therein, and no appeal has been properly and timely filed, or an appeal has been filed but determined by the Building Abatement Appeals Board adversely to the appellant, the Building Official shall file in the office of the Recorder of the County of Alameda a certificate describing the property and certifying that the building is an unsafe, substandard, and dangerous building and that the owner has been so notified. Whenever the corrections ordered shall thereafter have been completed or the building demolished so that it no longer exists as an unsafe, substandard, and dangerous building on the property described in the certificate, the Building Official shall file a new certificate with the Alameda County Recorder certifying that the building has been demolished or all required corrections have been made so that the building is no longer unsafe, substandard, and dangerous, whichever is appropriate.

SEC. 9-3.404 STANDARDS TO BE FOLLOWED. The following standards shall be followed by the Building Official (and by the Building Abatement Appeals Board if an appeal is taken) in ordering the repair, vacation, or demolition of any dangerous building or structure:

- a. If the building or structure reasonably can be repaired so that it will no longer exist as a dangerous building, it shall be ordered to be repaired; otherwise it shall be ordered to be demolished.
- b. If the building or structure is in such condition as to make it immediately dangerous to life, limb, property, or safety of the public or its occupants, it shall be ordered to be vacated.

SEC. 9-3.405 DEMOLITION, AN ALTERNATIVE TO REPAIR. An order to demolish shall not indicate an alternative permission to repair; however, an order to repair may be satisfied by demolition.
